

Question to Ponder

How many people do you come into contact with in a single day? Who are they?

Objective & Standard

- I can explain how the Black Death (Bubonic Plague) spread to Europe and its impact on global population.
- I can explain how the Black Death affected social order and the economy of Europe.

7.40 Describe the economic and social effects of the spread of the Black Death (Bubonic Plague) from Central Asia to China, the Middle East, and Europe, and its impact on the global population.

The Black Death is also called the Bubonic Plague.

Black Death and the Population

The plague reduced the world population from an estimated 450 million down to 350–375 million in the 14th century.

Recommended Treatment: good diet, rest, relocating to non-infected area.

THE BLACK DEATH

THE 14TH CENTURY

Modern boundaries are shown for reference.

- Cities with repeated plague outbreaks, 14th to 18th century
- ← Spreading of the plague by marine routes

Approximate date of the first outbreak

1347	1350
1348	1351
1349	relatively unaffected

Doctors during the time of the Bubonic Plague had to wear special masks like this one.

What was the point of wearing such a scary looking mask?

How much of the doctors body is exposed?

*Ring around
the rosies,
Pocket full of
posies,
Ashes, ashes,
they all fall
down!*

Some say this children's song is about the Black Death.

What makes people think that?

The background of the slide is a black and white illustration depicting the Black Death. On the left, a skeleton is shown with a long, thin staff. In the center, a man with a long beard and a hooded robe stands with his arms crossed. On the right, a skeleton is being carried by a woman in a long dress and a headscarf. The scene is set outdoors with some foliage visible at the bottom.

Black Death Tree

Draw an outline of a tree on your paper and then write these answers in the tree...

Leaves-What were the effects of the plague?

Trunk-Who did the plague impact?

Roots-Where/how did the plague start?
