10 points

- All pictures and information in the presentation should be cited on this page.
- The citations should be organized by slides. Mrs. Martin will show you this better in class.
- All text should be uniform on this slide. If one link is hyperlinked, all should be hyperlinked.

Additional information:

Pictures should not be stretched to where they appear distorted.

All fonts should be uniform throughout the presentation. Header text can be fancy, but everything else should be a standard type of text and the same on each slide.
